

## IMPORTANT NEWS

January 10, 2017

### Transition to MPEG-4

#### ***IMPORTANT REMINDER***

The MPEG-2 to MPEG-4 Transition will begin April 2017 and will occur in 3 Phases over 3 years.

This transition may require equipment changes in your headend and/or subscriber's home. Please check our website [www.shawbroadcast.ca](http://www.shawbroadcast.ca) for the most up-to-date Transition Plan and MPEG-4 compatible hardware and supplier contact information.

<http://www.shawbroadcast.com/Content/Francais/mpeg4.htm>

<http://www.shawbroadcast.com/Content/US/mpeg4.htm>

At the end of this transition the majority of the signals will be in High Definition, and all signals will become 8PSK MPEG-4 if they are not already.

All signal moves or changes will require decoder authorization.

**Note:** ANIK G1 has HD signals available in MPEG-4 that you may consider launching now.
